Abderrahim Laribi

Front-end developer (reactJs / nextJs / tailwind).

Professional Developer experienced in building responsive and functional web applications using React, Next.js, Tailwind CSS, and TypeScript. Focused on clean, efficient code and practical UI design. Currently learning back-end technologies like Node.js and MongoDB to better understand full-stack development. Completed several projects in areas such as e-commerce, real estate, fitness, and social media.

PROFESSIONAL PROJECTS

MERN Social Media Platform   2024

Built a full-featured social media application using React, Context API, Tailwind CSS, Express.js, and MongoDB. Implemented user authentication, post creation and management, commenting, and like functionality, delivering a complete, interactive user experience.

🔗 View Project

E-commerce Website   2024

Built a modern e-commerce website using React.js, Tailwind CSS, and Supabase. Implemented product browsing, cart management, category navigation, and responsive design, delivering a smooth and engaging online shopping experience.

🔗 View Project

Real Estate Website   2023

Developed a responsive, modern real estate platform with React, Tailwind CSS, Context API, and AOS animations. Showcased detailed property listings and an integrated contact form for client inquiries.

🔗 View Project

Authentication System (Next-Auth)   2024

Engineered a modern authentication solution with Next-Auth, featuring email/password sign-up and login, Google and GitHub OAuth, session management, and an admin dashboard for role-based control.
